

San Diego 3M Automotive Clear Bra Paint Protection Installation, Window Tinting, Windshield Repair.

Description:

BumperDocs' Customer Stories!

1-800-392-3464

“After buying my first real luxury car, I knew I really wanted it to be protected as best I knew how. BUMPERDOC installed my clear bra perfectly. They got me in and out on time and even washed the car afterwards. I honestly feel much more at ease knowing my paint is protected.”

- Sarah Hicks

“After finding out about 3M clear bra from attending a demo at my local BUMPERDOC, I knew right away it has to go on my car. They did GREAT work and no one can ever tell it’s on the car!”

- Harvey Crozier

Toyota Tundra Paintless Dent Repair - San Diego

Dear Bumper Doc,

I just had my 2007 Tundra Double Cab Limited repaired this last weekend. Unfortunately last Friday a shopping cart was pushed full force into my drivers side rear door leaving a really big dent that was also very deep. I spoke to Cliff over the phone, he was very courteous & helpful. I went right over and Jason took a look at the dent while Cliff helped me out, Because of the location of the dent Jason said he would do his best but that the dent would still show slightly due to the location. My truck was ready an hour later and was in brand new condition, you would never be able to tell that a shopping cart had flown into it. I want to thank Cliff for his awesome customer service and Jason for the unbelievable job he did repairing the dent. BUMPERDOC is BY FAR the BEST and I will definitely be sending you lots of business; you have also earned a customer for life. Your service is above par and your prices are rock bottom low. No one should go anywhere else but BUMPERDOC!!

Thanks!!!

- Daeson Sanchez Kuster

Temecula Honda Ridgeline Paintless Dent Repair
I am so happy with the repair work performed on our new 2007 Honda Ridgeline that had a large dent on the quarter panel and scrapes on the bumper. It looks like new again. I had two estimates that were double what BUMPERDOC charged us. I will certainly hire you again, if necessary, and will recommend your company to my friends. Thank you for your fine service.

Ford Mustang Dented Bumper Repair
I had just bought a brand new Ford Mustang and a few days later, I backed into a surrounding wall guarding a fountain in my apartment complex. My bumper was dented and scratched, I did not want to go through my insurance, plus my deductible was \$500, but being a new car, I had to get it fixed. Two days later I was at a car wash and saw their advertisement. BUMPERDOC came right to my house and two hours later my bumper looked brand new again. The service is magical.
