

## Auto Body Unlimited Tampa, Clear Water, Florida

### Description:

Auto Body Unlimited Is Tampa, Clear Water, Florida Source For Quality Auto Body Paint Repair Services. Our Technicians Are Certified By Audi, BMW, Ferrari And Porsche.

You Be The Judge!

The Auto Body Industry is controlled by Insurance Companies. Insurance Companies pay the same Labor rate and Paint Material price for a vehicle collision repair and refinish, whether or not it is a Chevy Pickup Truck, BMW, Porsche, Mercedes Benz or Ferrari.

An Auto Body Technician works on an hourly "flat rate" base job. The Technician gets the same "per hour" rate on every vehicle, no matter what vehicle it is. All of the other Body Shops pay their technicians based on the number of hours produced per week and not on the quality of work. In our shop, the technician gets their pay by producing quality work for specializing in exotic motorcars.

A technician who works on an average vehicle, produces more weekly than the technician who works on a high end car. Because that technician with the high end car must deliver quality work. A customer with an exotic car expects "nothing less" then quality work! That "is" our Body Shops main focus.

Most Body Shops may not be using good products or materials to keep their supplies costs down, because Insurance Companies won't cover them. Our Body Shop uses well-known PPG (EURO PAINT REFINISH) and 3M prepping material.

Any Shop recommended by an Insurance Company work only under that particular Insurance Company's guidelines. This may not be the best interest of the customer. We are an independent Auto Body Shop with the primary focus of having the best interest of the customer.

Some Insurance Companies saying they would warranty the work on vehicle if you take your car to these shops. But, keep one thing in your mind, it is nothing but persuasion to get your vehicle in to their shop! Then, your vehicle may be repaired with used or aftermarket parts. Because these shops are in contract with Insurance Companies. And Saving them Millions by delivering low quality work.

We will not only repair your vehicle with original manufacture parts, we will get your vehicle in pre-accidental condition. All of our work has life time warranty, no matter what Insurance Company you choose in future.

Our Technicians are well experienced and previously worked for major European Automotive Dealerships in the Tampa Bay Area. These Dealerships are Reeves Import Motor Cars in Tampa, Bert Smith International in St. Petersburg, Ferman BMW, Ferman Mini and Volvo in Tarpon Springs.
