

Sacramento Mobile Auto Body Repair
Sacramento Mobile Bumper Repair Sacramento
Mobile Upholstery

Description:

BumperDoc Franchise

Are you looking for a great opportunity?

Although buying a franchise is investing in your future, the variety of choices can be overwhelming and confusing. We suggest you consider three critical factors in your decision: the market potential, the opportunity and the support you will receive.

Enormous Market Potential!

The auto reconditioning market, estimated at over \$10 billion per year, has been growing rapidly, and with millions of new cars on the road each year, it shows no sign of slowing down.

Auto reconditioning includes plastic bumper repair, paintless dent repair, and rapid auto body repairs.

These innovative services have changed the face of the auto body repair industry, allowing customers to save time and money on high-quality results. Demand for these services has expanded greatly over the last decade, and BUMPERDOC is positioned to be the leader in this exciting new market.

Just as outpatient clinics were created to address problems in the health care industry, auto reconditioning centers have emerged to address problems in the auto body repair industry.

Before outpatient clinics, patients were required to attend large, inefficient, expensive medical facilities for any and all health needs. Health practitioners saw a better way to provide high-quality services, efficiently and at a lower cost, resulting in a better experience for the patient.

Before auto reconditioning centers, when a customer had a vehicle with minor damage, the only option was expensive, inefficient collision repair centers. These facilities were designed for heavier repairs, which often resulted in customers spending unnecessary amounts of time and/or money on a minor cosmetic repair.

But times have changed. With the availability of BUMPERDOC's innovative services, customers and insurance companies will no longer accept the

long waits and unnecessary costs associated with these minor repairs. With customers' strong desires to maintain the appearance and value of their vehicles, and the high volume of vehicles under lease, the market is expected to continue its strong growth.

Unique Opportunity!

It is rare for a new franchise to offer such a unique opportunity. BUMPERDOC combines the income potential of the auto repair industry with the support offered by a franchise system. In addition to a large market, a few additional factors that make BUMPERDOC an attractive business opportunity:

- * Innovations in plastic and metal auto body repair.

- * Increasing demand for rapid, high-quality repairs at competitive prices.

- * Environmental pressures and natural resource depletion.

- * High insurance deductibles and the desire to avoid filing an insurance claim, which may result in increased premiums.

- * The increasing importance of Internet marketing.

- * The large and growing number of vehicles on the road.

- * The large number (more than 30%) of new leased vehicles.

- * The rising number of minor and single-vehicle collisions.

- * Increasingly crowded roadways and parking lots.

It is self-evident that many drivers have a strong desire to maintain the appearance as well as the value of their vehicles. This explains why auto body repair is considered to be a desirable year-round business in both strong and lean economic conditions.

If you are looking for a franchise that offers financial benefits, consider that for most people, after any real estate owned, their automobile is their most valuable possession. There is a huge quantity of money generated by the auto reconditioning industry and it is expected to increase in the years ahead.

Dedicated Support

We understand how important it is to be supported by a caring, competent team when you are doing something for the first time. Owning your own

business is an exciting goal, and we are committed to making the journey safer, more enjoyable and more rewarding.

Our success depends upon your success, and we are dedicated to providing you with the highest level of support. [Click Here](#) for more information.
