

**Portland Auto Body Repair Beaverton Bumper Repair Beaverton Paintless Dent Repair Portland**

**Description:**

APEX is "passionate about what you drive!" For years our mission has been to offer a Car Spa that envelopes many different services in just one convenient location. This philosophy of business has led to many return customers whom not only enjoy our quality services, but also the personal attention they receive. We address your needs one by one and come up with a package that is suited personally for you. Apex prides itself on telling about its services, not selling them.

We start with the best products available on the market, and finish with highly trained individuals who specialize in their departments. The ownership taken by Apex employees is the key to our success. We invite you to take a look around our site.

Proudly serving the greater Portland/Beaverton area

Prices may vary upon vehicle condition.

## Window Tint

Enhance your vehicles appearance and feel the difference.

### Enhances Vehicle Appearance

A vehicle with window film simply looks better. By installing window film, a vehicle will have an increased sport and value look about it. Even the blue book value (automotive pricing guide) can increase with "privacy glass" installed! The film may pay for itself in actual increased value alone.

### Increases Comfort

Window tint rejects up to 67% of the sun's heat - creating a uniform interior temperature and saving energy regarding A/C usage. Consider it insulation for your car instead of your home.

### Reduces Glare

Window films reduce the annoying glare from the sun and other vehicle headlights, improving driving safety and confidence.

### Blocks UV Radiation

Window tint screens out up to 99.5% of the sun's invisible ultraviolet (UV-A/B) radiation, which is the principal cause of premature skin aging.

### Protects The Vehicle

Window films help block UV radiation, visible light and heat from fading the interior fabrics and plastics of a vehicle, keeping interiors looking new longer.

### Protects Passengers

If a vehicle's window is ever broken in an accident, window tint can help hold potentially dangerous

flying glass together and safely away from passengers. Besides the accident protection, how about virtually 100% sunscreen for your children or pets?

Front two roll-up windows \$125.00

Two door car \$245.00

Four door car \$275.00

Small SUV/Wagon/Van \$295.00

Large SUV/Van \$325.00

Clear paint protection film

Drive with peace of mind with a 3M Clear Bra package from Apex Restoration.

Say no to rock chips and scratches.

3M Paint protection film is a virtually invisible product that is hand applied to the most exposed paint surfaces of your vehicle. It can be removed without any damage to your paint and maintains the new look, and value of your vehicle. 3M film is the most advanced protective coating product available for your vehicle. Every package is designed to your specific needs and wants. There is practically no limit to the amount of protection we can provide for your vehicle.

Blemished Headlights

Headlamp corrosion and oxidation affects the amount of light that transfers through the headlamp itself. Besides the unsightly appearance, a lamp in this condition can make nighttime driving concerning.

Apex removes this concern on most headlamps, returning them to their original shiny look. The other advantage besides safety and appearance is

vehicle value. The perceived value alone is night and day with this process. Along with corrosion and oxidation, impact debris damage is minimized through this process, making the lamp smooth while avoiding expensive replacement.

Headlights start at \$65.00 each

Driving lights start at \$25.00 each

## Paint Work

Apex Restoration offers a body shop alternative with its paint process.

Specializing in small collision impacts, we are able to produce a result that is equivalent to what you may get from a high end body shop or collision center at a fraction of the cost. Our paint services are limited to bumpers and mainly smaller areas. Using state of the art equipment and high end paints, our repairs have proven long lasting and permanent.
