

Redline Speed Worx

Description:

RSW is the region's sole distributor for several prestigious companies in the European Automotive field. We work very closely with APR (a leading high end vendor for VW/Audi performance products) to develop cutting edge technology for new vehicle platforms brought into the United States. RSW is built upon maintaining the highest levels of customer service; we strive to provide our customers with only the best products available, all while ensuring our staff has the highest level of technical training. It is due to this business model that RSW ensures their customers are provided with the highest levels of service. RSW continues to employ both factory trained master certified technicians as well as ASE Certified technicians to ensure a wealth of knowledge that is rarely on hand in any private repair facility. We at RSW believe that to be the best, you must have an active role in the communities in which we serve. With this philosophy in mind, owners and employees can be found supporting the Bavarian Breeds at local tracks and events all over the East Coast. Whether completing Factory Scheduled Maintenance Services on Audi, VW, BMW, Porsche, or Mercedes Benz, hand fabricating a one of a kind AMG Mercedes exhaust system, or assisting our customers in building the vehicle of their dreams, our roots are growing deeper within the local European Community.
